

Aleksandr Avdiushenko

Paphos, Cyprus • ovalur@gmail.com ✉ ovalur 🌐 avalur

Lecturer, Researcher and Data Scientist with 8+ years of experience in data science, analysis, and educational programs for the IT industry.

Work experience

- 2023 — present: Lecturer and Researcher, [JetBrains](#)
 - Launched new educational program «[Computer Science and Artificial Intelligence](#)»
- 2022 — 2023: Head of ML programs, [Yandex](#)
 - Enrolled 100+ talented students in three partner master's programs of Yandex
 - Organized one-year Machine Learning course with modern approaches for 350+ participants in 2022-23
- 2019 — 2023: Associate Professor and Head of the educational program in «Data Science», [Saint Petersburg State University](#), [Department of Mathematics and Computer Science](#)
 - Launched new educational program «[Data Science](#)» in 2019, which immediately became popular among the best applicants in Russia, include winners of the International Olympiad in Mathematics (IMO)
 - Created and taught [one-year machine learning course](#) with modern ML approaches. The average student's evaluation of teaching is 4,78 out of 5,0
 - Developed with the group of students Python package for automatization of ML homeworks [mlpractice](#)
 - Created from scratch [International Scientific and Methodological Center of St. Petersburg State University](#) (Russian Ministry of Education grant) in 2020
- 2013 — 2022: Academic Programs Manager, [Yandex Data School](#)
 - Launched a branch of Yandex Data School in Novosibirsk in 2013
 - Expanded the Yandex Data School branch in cooperation with JetBrains to [Computer science center](#) in 2017
 - Organized open [Machine Learning training sessions](#) for Kaggle competition participants in 2019
- 2015 — 2018: Data Scientist, [Yandex](#)
 - Increased the accuracy of the organizations database twice by 2% and 3% (the main goal of the team)
 - Automated and optimized data update processes in call centers and in [Toloka](#)
 - Worked in a group of six data scientists. We developed soft in Java, SQL, Python, a little bit of C++
- 2009 — 2015: Researcher, [Institute of Computational Technologies SB RAS](#)
 - Developed a new numerical model that takes into account the change in the geometry of the flow path over time
 - Accelerated calculations by the Fortran language software package available in the laboratory by 16 times (MPI per block), and another 7 times (OpenMP flows inside the block)
 - Made [PhD thesis \(in russian\)](#)

Skills

- | | |
|-------------------------------------|--------------------------------------|
| • Python: numpy, pandas, PyTorch | • linux, git, terminal, SQL |
| • Deep learning | • MapReduce, MPI, OpenMP |
| • Math: analysis, numerical methods | • Russian: native, English: advanced |

Education

Master degree in Math	Novosibirsk State University	2009
PhD in Math modeling	Graduate School of ICT SB RAS	2014
Graduate , Machine learning	Yandex Data School	2016

Professional development

Programming Languages, parts A, B, C	University of Washington	Coursera certificate	2017
How to Win a Data Science Competition	HSE University	Coursera certificate	2019
